## Economic Impact Overview

---

All states offer tax incentives to promote activities, such as business development, that policy makers wish to encourage. One tool used by governments to help understand the impact of an incentivized activity is the economic impact model which estimates future state revenues against the cost of providing a tax benefit over time.

Economic models follow the flow of income that moves around an economy through the primary relationships between businesses and consumers. Models take into account the typical purchases made by companies to produce goods or services, where those companies are, and how workers spend the income that is made. The models follow these spending patterns within the economy to understand the larger impacts that circulate within a region and what income leaks out due to imports. While models are abstractions of the economy, reasonable estimates can assist policy makers in understanding the costs of tax incentives relative to the potential fiscal benefits, especially when analyzing an individual development project or tax program.

Economic impact models are particularly suited to analyzing business development tax credits, where the goal is increased economic activity over many years. With tax incentives that target non-economic objectives, the use of these models can still be informative but should be part of a larger decision-making process given the different policy goals.

### REMI Missouri Economic Model

---

The Missouri Department of Economic Development (DED) uses the Regional Economic Models, Inc. (REMI) Policy Insight model to forecast economic impacts statewide and across 17 economic regions. The REMI model assesses the long-term economic and fiscal impacts to the state of new firms and jobs for the primary purpose of determining benefit-cost ratios when tax credit incentives are used. Throughout the year DED uses the model for individual project analysis and on an annual basis for reporting purposes.

The state of Missouri has conducted analysis with the REMI model for over fifteen year and is one of many government entities throughout the country that use this system to evaluate economic impacts. Over 250 organizations, universities, and consulting firms use the model including governmental agencies in 40 states. Articles about the research findings have been published in professional journals, such as the *American Economic Review*, *Economic Systems Research*, *Journal of Regional Science*, *Applied Economics*, and the *International Regional Science Review*, and documentation of model equations are available on REMI's website.

In 2012 the Pew Center released a study, *Evidence Counts: Evaluating State Tax Incentives for Jobs and Growth*, which indicated Missouri was a top ten state in terms of the quality of tax incentive evaluations. In 2013 a Pew Center and MacArthur Foundation Report,

*States' Use of Cost-Benefit Analysis*, also listed Missouri as a top ten state applying cost-benefit analysis to policy-making. Missouri was also one of six states identified as using best practices for evaluating the economic impact of incentive programs in a *2013 Incentive Transparency Index* developed by Investment Consulting Associates.

The REMI model is updated annually with federal data from the Bureau of Economic Analysis, Bureau of Labor Statistics, Census Bureau, and other agencies. DED also takes the extra step to annually calibrate the fiscal component of the model with Missouri Office of Administration budget figures to produce better state tax estimates. In addition to calibrating the fiscal component, a feature unique to REMI, the model also provides robust abilities to model impacts that are not found in most other impact models:

- The model can analyze economic impacts over a long period of time and take into account changes expected to occur. For example, unlike most models, REMI includes added cost to the state over time as a new economic activity attracts workers from out-of-state that will bring families and the need for governmental services.
- The model can account for local area competition when a new business arrives and competes with existing firms for market share. Restaurants and retail establishments, for example, may add new jobs but will compete with other firms and therefore could have a lower overall impact on the economy than the new jobs alone would suggest.

### **Economic Impact Example**

---

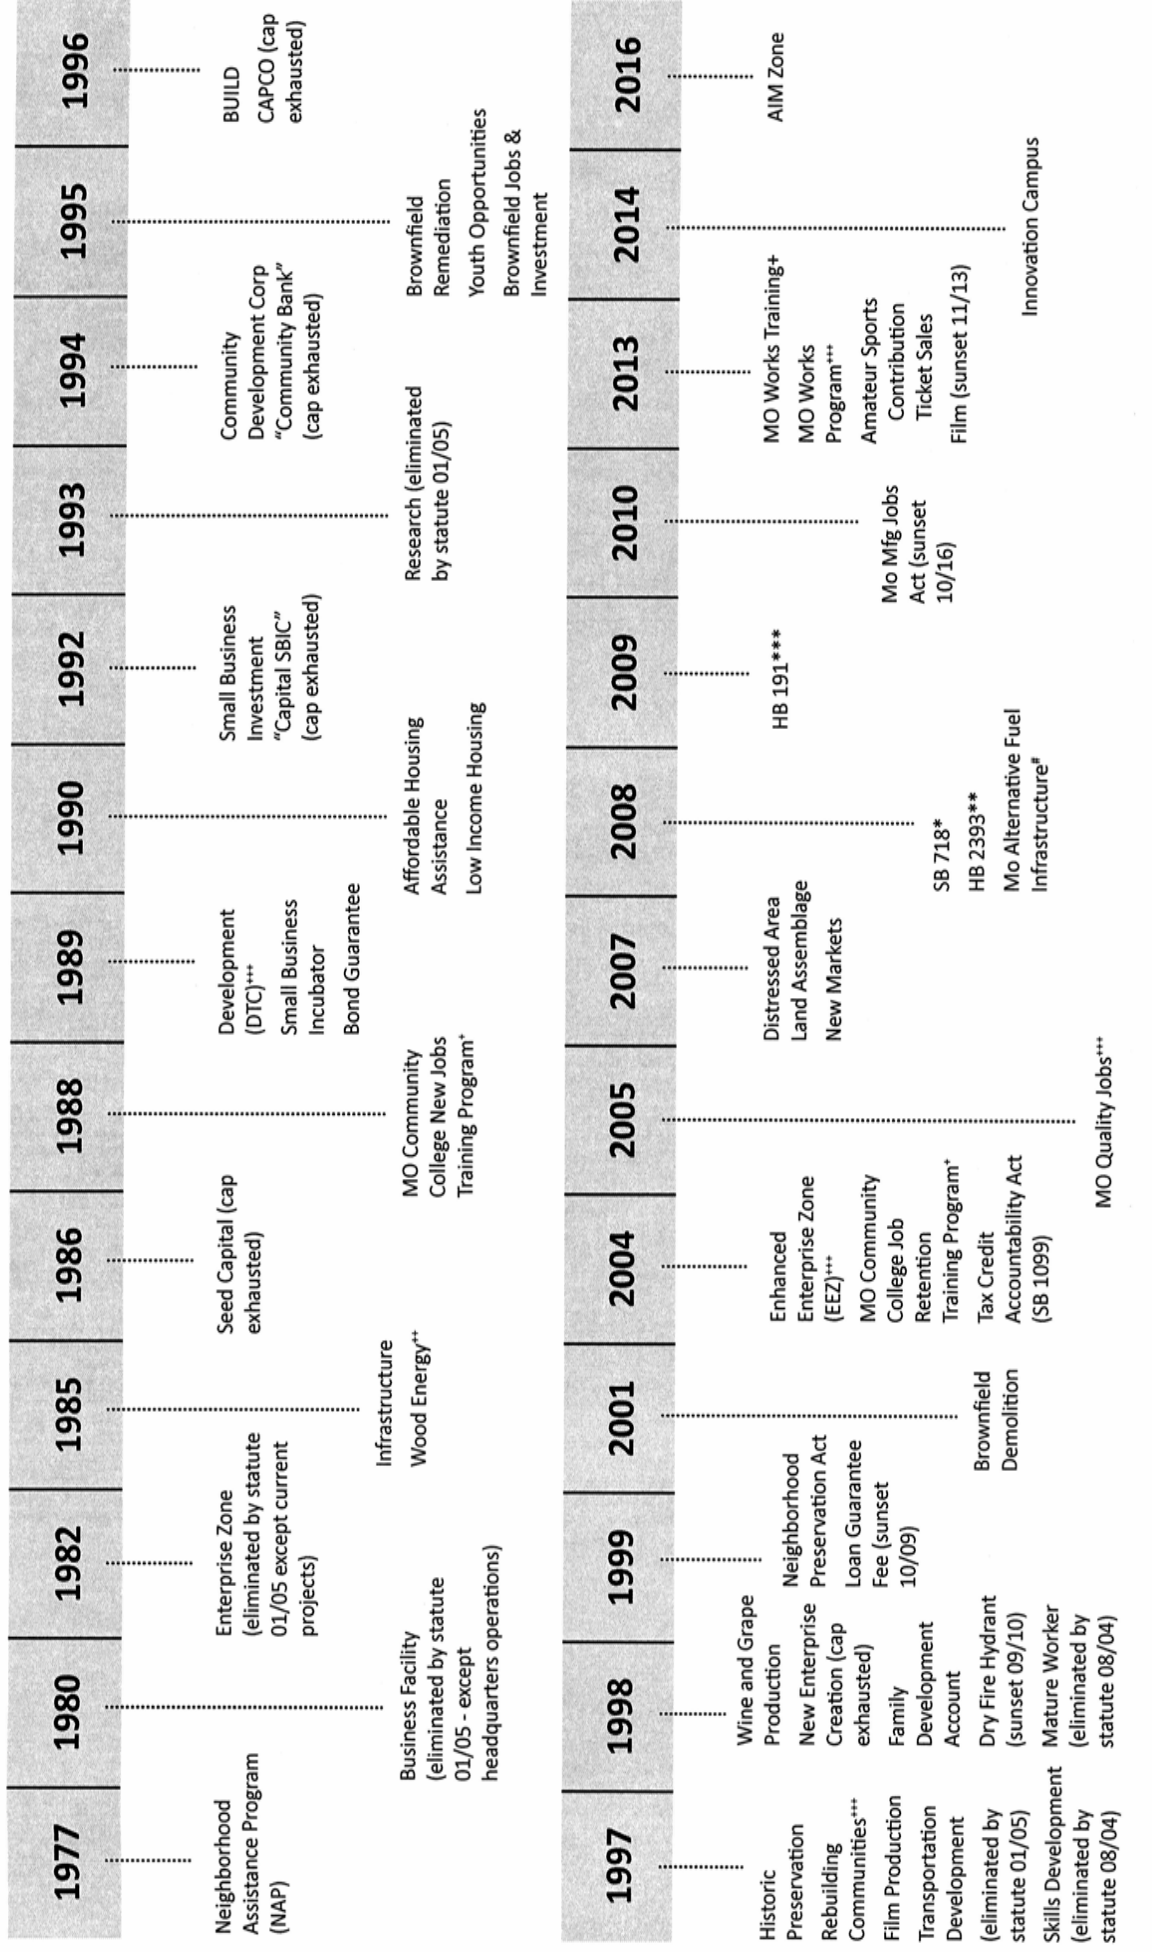

The following project scenario provides an example of the fiscal impact a new manufacturing plant can have to Missouri given the assumptions listed below. Impacts are for a 10-year period and dollar figures are in present value terms.

#### **Project Assumptions:**

A new machinery manufacturing company locates in Missouri and creates 100 new jobs after one year of plant construction and equipment purchases which total \$12.5 million. The company then hires 100 full-time workers at average wages. The state offers \$2.0 million in tax incentives spread over six years. Over a ten year period the benefit-cost ratio is 2.82 indicating that for every \$1 dollar of tax incentive the state is expected to receive \$2.82 in net new general revenue.

Category	Description	10 Yr. Total
BENEFIT	Net State General Revenue (Gross Revenue - Gross Expenditures)	\$5,378,768
COST	Tax Incentive spread over six years	\$1,907,767
<b>BENEFIT-COST RATIO</b>		<b>2.82</b>

**Statutory Authority:** Sections 32.105 - 32.125, RSMo **Applicable Taxes:** Income Tax, Bank Tax, Financial Institutions Tax, Corporate Franchise Tax, Tax on Gross Receipts of Express Companies, Insurance Premium Tax

## **Program Description and Eligibility Requirements:**

The Affordable Housing Assistance Tax Credit Program (AHAP) is an incentive for businesses and qualified individuals in Missouri to participate in the production of affordable housing for low-income families. The credit can be used by a business or qualified individual as a reduction in their state tax obligation. To receive the AHAP credit, a business or qualified individual must donate cash, professional services or real or personal property to a non-profit organization whose primary purpose is to provide affordable housing for low-income families.

## **Explanation of How Award is Computed:**

The amount of Affordable Housing Assistance Program Tax Credit allocated is equal to 55% of the amount of the contribution. Non-profit organizations make application in the Missouri Housing Development Commission (MHDC) for a reservation of AHAP credit. The non-profit organization then solicits contributions from businesses or qualified individuals to assist in the production of a specific affordable housing development. After MHDC receives the necessary documentation of a qualified contribution to the non-profit organization that meets all of the criteria set out in the statute and program regulations, a tax credit is issued to the donor in the amount of 55% of the value of the contribution. Applications for production credits are accepted continuously, and applications for the operating credit set-aside are usually accepted twice a year.

**Program Cap:** Cumulative \$ \_\_\_\_\_ (remainder of cumulative cap) \$ \_\_\_\_\_ Annual \$ \_\_\_\_\_ None \_\_\_\_\_

## **Explanation of cap:**

The cap on the Affordable Housing Assistance Program is set by statute as \$11 million annually of which \$10 million is for production credits and \$1 million is for operating credits. Once MHDC has made reservations totaling \$11 million in AHAP credit in a fiscal year, the application cycle is closed.

**Explanation of Expiration of Authority:** The AHAP program does not have a statutory sunset provision.

<p><b>Other Benefits:</b> The Affordable Housing Assistance Program (AHAP) increases the availability of rental housing and for sale housing that is affordable to low-income families. Other benefits include the removal of blight in communities and increased local tax revenues such as property taxes. The AHAP credit also increases the capacity of non-profit housing organizations to build or renovate affordable housing for low-income families. The AHAP credit increases the amount of disposable income for low-income families by providing housing that is affordable to them. This improves the overall quality of their lives by providing additional income for other basic necessities such as food, clothing, healthcare and education. Lastly, the operating AHAP credit helps organizations attract donations to support operating funds, without which the agencies may not be able to administer their affordable housing programs.</p>

# LOW INCOME HOUSING TAX CREDIT PROGRAM

MISSOURI HOUSING DEVELOPMENT COMMISSION

## PURPOSE

An incentive for the new construction or rehabilitation of rental housing affordable to low and moderate income families in Missouri.

## AUTHORIZATION

Sections 135.350 to 135.363, RSMo

## HOW THE PROGRAM WORKS

This program leverages equity investments from the private sector for the development of rental housing, thereby reducing rents to affordable levels for low and moderate income families. It provides a state tax credit for ten years to qualified owners of affordable rental housing developments equal to approximately 9% of the eligible development costs. The state low-income housing tax credit may be allocated to a qualified development in an amount up to 100% of the federal tax credit allocated to the development. The total amount of federal 9% credits available is capped annually at an amount set by the IRS, based on the population of the state.

Developments financed with tax-exempt bonds are eligible to apply for state tax credits equal to approximately 4% of the eligible development costs. There is a \$6 million statutory annual cap on new authorizations of state 4% credits.

## ELIGIBLE AREAS

Statewide.

## ELIGIBLE APPLICANTS

Developers (private and not-for-profit) are eligible to apply for the tax credit.

## APPLICATION PROCEDURE

Each year MHDC publishes a notice of funding availability announcing the amount of credits available and the deadline for both 9% and 4% applications, which is typically in the fall. The process to determine the allocation of tax credits is competitive. MHDC staff reviews all proposals to determine the financial feasibility and the demand for affordable rental housing in the community. Staff typically makes its recommendations to the Commission from the fall application round in the winter. Depending on the availability of credits, a second round may be held for 4% applications in the spring, following the same competitive evaluation process.

<b>Program Description and Eligibility Requirements:</b> The Missouri Low Income Housing Tax Credit (MOLIHTC) is a ten-year state tax credit available to qualified owners of affordable rental housing. The MOLIHTC generates equity investments from the private sector for the development of new or rehabilitated rental housing which enables owners to lower rents to affordable levels for low-income families. A qualified development is one that (i) rents at least 20% of its units to families earning 50% of the area median family income or (ii) rents at least 40% of its units to families earning 60% of area median family income, each adjusted for family size. The development must (a) meet a demonstrated need for affordable rental housing in the community, (b) be economically feasible, (c) leverage tax credits with other financing, (d) provide affordable rental housing for qualified low-income Missourians for an extended period of time.						
<b>Explanation of How Award is Computed:</b> Entitlement <input type="checkbox"/> Discretionary <input checked="" type="checkbox"/> The amount of the MOLIHTC allocated to a given housing development is directly related to the percentage of low-income housing units made available to qualified low-income families and the acquisition, construction or rehabilitation expenditures necessary to create the development, less land and non-depreciable costs. There are two types of MOLIHTCs: 9% and 4%. Developments compete annually for the 9% Missouri LIHTC. Developments receiving an allocation of tax-exempt bond-financing from the Department of Economic Development may apply to receive the 4% MOLIHTC. The maximum amount of MOLIHTC that can be issued for any development is 100% of the federal LIHTC issued for the development.

No more than six million dollars in tax credits shall be authorized each fiscal year for projects financed through tax-exempt bond issuance (4% MOLIHTC-RSMo 135.352). The MOLIHTC is taken annually over a ten year period. There are five year carry forward and three year back provisions.

## HISTORICAL AND PROJECTED INFORMATION

**Comments on Historical and Projected Information:** 1) Historically, the amount of authorized and issued MOLIHTC has fluctuated based on the number and size of developments receiving an allocation of tax-exempt bond financing from the Department of Economic Development and therefore receiving 4% MOLIHTCs. No more than six million dollars in tax credits shall be authorized each fiscal year for developments financed through tax-exempt bond issuance (4% MOLIHTC - RSMo 135.352). The projections for issued and redeemed credits in FY18 and FY19 use the three year averages for both. These projections cannot precisely account for carry forward and carry back

**Other Benefits:** The LIHTC program delivers rental housing that is affordable to low-income families, veterans, special needs tenants, and seniors. It reduces blight and improves communities through new construction and rehabilitation of affordable rental housing in Missouri. The reduced rents brought about by the LIHTC program increases households' disposable income and allows low-income families, veterans, special needs tenants, and seniors to meet more of their other basic necessities such as food, clothing, education and health care. The subsidy provided by the LIHTC program makes it economically feasible to develop new or rehabilitated affordable rental housing in many very low-income rural communities in Missouri. Finally, the equity raised from the LIHTC helps preserve affordable rental housing that is in danger of being lost from existing stock. For 2017 authorized developments, the average rent savings, per unit, per month is \$218 or \$2,621 annually.

### Other Benefits (cont'd):

In FY-2017, every dollar of auth. program tax credits returns:  
 N/A in new personal income totaling \$92.82 million  
 N/A in new value-added/GSP totaling \$144.28 million  
 N/A in new economic output totaling \$228.34 million

### Over 15 YEARS, every dollar of auth. program tax credits returns:

\$2.24 in new personal income totaling \$318.01 million  
 \$3.00 in new value-added/GSP totaling \$425.43 million  
 \$3.91 in new economic output totaling \$554.42 million

## PERFORMANCE MEASURE(S)

### Number of Housing Units Produced or Preserved

**Comments on Performance Measure:** This performance measure reflects the total number of LIHTC housing units placed in service, or credits issued each year. Total number of units placed in service, or credits issued, each year varies - dependant on the applications received for consideration, the actual number of projects approved, and the type of projects approved (preservation or new construction). Authorized developments typically take 24 months to complete construction and submit cost certification documentation to MHDC; after which they are issued LIHTCs. No LIHTCs are issued by MHDC or eligible to be redeemed by a development owner until a development is completed to MHDC requirements and ready for leasing.

#### **FUNDING LIMITS**

The amount of bonds to be issued will be determined by the Missouri Department of Economic Development (DED) and the Missouri Development Finance Board (MDFB), based on the need for funding to initiate the project, and limited to the state's economic benefit. The minimum bond issue is \$500,000.

#### **APPLICATION/APPROVAL PROCEDURE**

The business must submit an application to DED and MDFB for review. Applications are due 15 business days prior to the first Monday of the month. DED and MDFB will review on a case-by-case basis.

#### **REPORTING REQUIREMENTS**

The business must report to MDFB the number of new jobs; the total amount of salaries and wages paid to eligible employees and investment in capital improvements, semi-annually during the initial 3-year build out phase and annually for the term of the credits.

#### **SPECIAL PROGRAM REQUIREMENTS**

The following conditions must be met for a project to be approved.

- **Sale of Bonds:** Unless otherwise approved by the Board, the Applicant will be required to purchase the Bonds.
- **Cooperative Effort:** The political subdivisions benefiting from the project or other local entities must commit significant local incentives relative to their economic benefit compared to the state. Such incentives may include tax abatement, discounted utility fees or others, to the extent allowed by law.
- **"But For" Test:** DED and the MDFB must determine that the program is a material factor in the company's decision to initiate the project, and this is certified by the business.

- **Positive State Economic Impact:** The amount of new direct and indirect state taxes over an 8- to 15-year period, as calculated by DED, must exceed the total amount of incentives provided by the state.
- **Requirements:** New full-time (35+ hours per week) jobs in a new or expanding business (not including identical jobs filled by recalled workers, replacement jobs or jobs which previously existed in the business) are considered to be "new jobs". The business or a related taxpayer cannot have employed them during the preceding twelve months. The wages for such employees must be above the average wage for the area.
- **"Clawbacks":** In the event the business does not fulfill the commitments made regarding the number of new jobs or capital investment, the tax credits will be reduced proportionately. In the event the business relocates or reduces the operation below the minimum standards for new jobs or capital investment prior to the term of the bonds, the tax credits received prior to that time must be repaid in full.
- **Bond Purchase:** Since the MDFB cannot guarantee the bonds, the business will likely have to purchase the Bonds.

## Missouri Alternative Fuel Infrastructure Tax Credit

Division of Energy Fact Sheet

11/2015

Missourians who invest in alternative fuel infrastructure projects may be eligible for a state tax credit. For all tax years beginning on or after January 1, 2015, but before January 1, 2018, any eligible applicant who installs and operates a qualified alternative fuel vehicle refueling property or electric vehicle recharging station may be allowed a credit against the tax otherwise due for any tax year in which the applicant is constructing the refueling property. The credit allowed per eligible applicant who is a private citizen shall not exceed \$1,500, or for an eligible applicant that is a business entity shall not exceed the lesser of \$20,000 or 20 percent of the total costs directly associated with the purchase and installation of any alternative fuel storage and dispensing equipment on any qualified alternative fuel vehicle refueling property. Eligible applicants include business entities or private citizens that own a qualified alternative fuel vehicle refueling property or an electric vehicle recharging property. A qualified alternative fuel vehicle refueling property must be owned by an eligible applicant and used for storing alternative fuels and for dispensing such alternative fuels into fuel tanks of motor vehicles owned by such eligible applicant or private citizens. A qualified electric vehicle recharging property must be owned by an eligible applicant and used for recharging electric motor vehicles owned by such eligible applicant or private citizens.

A qualified property is either an electric vehicle recharging property or an alternative fuel vehicle refueling property which, if constructed after August 28, 2014, was constructed with at least 51 percent of the costs being paid to qualified Missouri contractors for:

- Fabrication of pre-manufactured equipment or process piping used in the construction of such facility;
- Construction of such facility; and
- General maintenance of such facility during the time period in which such facility receives any alternative fuel infrastructure tax credit.

Eligible costs do not include the following:

- Costs associated with the purchase of land where a qualified property is placed;
- Costs associated with the purchase of an existing qualified alternative fuel vehicle refueling property; or
- Costs for the construction or purchase of any structure.

If no qualified Missouri contractor is located within 75 miles of the property, the requirement that 51 percent of the costs be paid to qualified Missouri contractors will not apply. A qualified Missouri contractor is a contractor whose principal place of business is located in Missouri and has been located in Missouri for a period of not less than five years.

Tax credits allowed must be claimed by the applicant at the time an applicant files a return for the tax year when the storage and dispensing or recharging facilities were placed in service at a qualified property. The credits must be applied against the income tax liability after all other credits provided by law have been applied.

If the amount of the tax credit exceeds the eligible applicant's tax liability, the difference will not be refundable. Any amount of credit that an eligible applicant is prohibited from receiving in a taxable year may be carried forward to any of the applicant's two subsequent taxable years. Tax credits allowed may be assigned, transferred, sold or otherwise conveyed.

A property where an applicant receives tax credits that ceases to sell alternative fuel or recharge electric vehicles will cause the forfeiture of the applicant's tax credit for the taxable year when the qualified property ceased to sell alternative fuel or recharge electric vehicles. The forfeiture will also apply to future taxable years, with no recapture of tax credits obtained by an applicant with respect to the tax years that ended before the sale of alternative fuel or recharging of electric vehicles ceased.

The cumulative amount of tax credits which may be filed for by eligible applicants claiming all credits authorized will not exceed \$1 million in any calendar year **subject to appropriations**.

Any eligible applicant desiring to file for a tax credit must submit the appropriate application for the credit with the Department of Economic Development. The Department of Economic Development will review the applications and certify to the Department of Revenue each eligible applicant that qualifies for the tax credit. A project owner must receive certification before the credit can be filed for on a Missouri tax return.

## **Missouri Wood Energy Tax Credit**

The Wood Energy Tax Credit (Sections 135.300-135.311, RSMo) was enacted in 1985 and amended in 1991, 1996, 2008 and 2014. The 2014 revision extended the expiration date to June 30, 2020 and stipulated that no tax credits could be authorized unless appropriation is made for such tax credits.

A Missouri wood energy producer (any person, firm or corporation that engages in the business of producing processed wood products from Missouri forest industry residue to be used as an energy source) is eligible for a tax credit of five dollars per ton of processed material.

A multiplier of 4 applies to charcoal, based on the amount of Missouri forest industry residue required to produce one ton of charcoal. Any amount of credit exceeding the tax due by a company in the year of production may be carried over to a subsequent taxable year, not to exceed four years. A credit earned under this program may also be transferred to third parties for use within this five-year period. To be considered an eligible fuel, forestry industry residues must have undergone some thermal, chemical or mechanical process(es) sufficient to alter the residues into a fuel product.

The Division of Energy evaluates the tax credit applications and certifies to the Department of Revenue each applicant that qualifies as a wood energy-producing facility.

### **AUTHORIZATION**

Sections 447.700 to 447.718, RSMo

### **ELIGIBLE AREAS**

Statewide.

### **ELIGIBLE APPLICANTS**

Any Missouri taxpayer is eligible to participate in the program.

### **ELIGIBILITY CRITERIA**

- The project must be projected by the Missouri Department of Economic Development (DED) to result in the creation of at least ten new jobs or the retention of 25 jobs by a private commercial operation.

### **PROGRAM BENEFITS/ELIGIBLE USES**

#### **• Remediation Tax Credits**

DED may issue tax credits for up to 100% of the cost of remediating the project property. DED will issue 75% of the credits upon adequate proof of payment of the costs; the remaining 25% will not be issued until a clean letter has been issued by DNR. The tax credit may also include up to 100 percent of the costs of demolition that are not directly part of the remediation activities, provided that the demolition is on the property where the voluntary

remediation activities are occurring, the demolition is necessary to accomplish the planned use of the facility where the remediation activities are occurring, and the demolition is part of a redevelopment plan approved by the municipal or county government and the department of economic development. The demolition may occur on an adjacent property if the project is located in a municipality which has a population less than twenty thousand and the above conditions are otherwise met. The adjacent property shall independently qualify as abandoned or underutilized. The amount of the credit available for demolition not associated with remediation cannot exceed the total amount of credits approved for remediation including demolition required for remediation.

Notwithstanding any provision of law to the contrary, in any county of the first classification that has a charter form of government and that has a population of over nine hundred thousand inhabitants, all demolition costs incurred during the redevelopment of any former automobile manufacturing plant shall be allowable costs eligible for tax credits under sections 447.700 to 447.718 so long as the redevelopment of such former automobile manufacturing plant shall be projected to create at least two hundred fifty new jobs or at least three hundred retained jobs, or a combination thereof, as determined by the department of economic development. The amount of allowable costs eligible for tax credits shall be limited to the least amount necessary to cause the project to occur, as determined by the director of the department of economic development, provided that no tax credit shall be issued under this subsection until July 1, 2017. For purposes of this subsection, "former automobile manufacturing plant" means a redevelopment area that qualifies as an eligible project under section 447.700, that consists of at least one hundred acres, and that was used primarily for the manufacture of automobiles but, after 2007, ceased such manufacturing.

The tax credits can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 147 – Corporate franchise tax
- Ch. 148 –
  - Bank Tax
  - Insurance Premium Tax
  - Other Financial Institution Tax

The remediation tax credit's special attributes:

### **APPLICATION/APPROVAL PROCEDURE**

An applicant must submit an application to DED for determination of eligibility and request for remediation tax credits.

An application must also be submitted to the Department of Natural Resources (DNR) for participation in the "Voluntary Cleanup Program." Acceptance into this program is a requirement of the Brownfield Redevelopment Program.

# NEW MARKETS TAX CREDIT PROGRAM

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### PURPOSE

Provide supplemental funding for investment entities that have been approved for the Federal New Markets Tax Credit (NMTC) program in order to direct more funding to Missouri projects. The NMTC program provides state and federal tax credits to investors that make investments into approved funds, which will make investments in eligible projects located in low income census tracts in Missouri.

This program does not provide tax credits directly to businesses. Eligible businesses interested in obtaining funding should contact the approved "Community Development Entities" that are listed on the website below.

### AUTHORIZATION

Section 135.680, RSMo, enacted in 2007.

### ELIGIBLE AREAS

Low-income communities (LIC) are census tracts that have a poverty rate of 20% or more, or the median income is below 80% of the greater than (a) statewide median income; or (b) metropolitan median income.

### ELIGIBLE APPLICANTS

Community Development Entities (CDEs) which have been allocated federal New Markets Tax Credits for Missouri. The state New Markets Tax Credits are provided to investors which invest in the funds established by a CDE for projects in Missouri.

### ELIGIBILITY CRITERIA

A CDE may make an investment (loan or equity) into a **Qualified Active Low-Income Community Business (QALICB)**, which is any corporation (including a nonprofit corporation) or partnership which meets the following criteria for any taxable year:

- At least 50 percent of total gross income of the QALICB is derived within any Low-Income Community.
- A substantial portion of the use of the tangible property of the QALICB (whether owned or leased) is within any Low-Income Community.
- A substantial portion of the services performed of the QALICB by its employees are performed in any Low-Income Community.
- Less than 5 percent of the average of the aggregate unadjusted bases of the property of the QALICB is

attributable to collectibles, other than collectibles that are held primarily for sale to customers in the ordinary course of such business; and

- Less than 5 percent of the average of the aggregate unadjusted bases of the property of the QALICB is attributed to nonqualified financial property.

Any business that derives or projects to derive 15 percent or more of its annual revenue from the rental or sale of real estate shall not be considered to be a QALICB.

### PROGRAM BENEFITS/ELIGIBLE USES

The tax credit amount shall be equal to the applicable percentage of the adjusted purchase price paid to the issuer of such qualified investment:

- 0% for each of the first 2 credit allowance dates;
- 7% for the third credit allowance date;
- 8% for the next four credit allowance dates

### FUNDING LIMITS

The amount of tax credit claimed shall not exceed the amount of the taxpayer's state tax liability for the tax year for which the tax credit is claimed.

The maximum state tax credit in any fiscal year for all CDEs is \$25 million. There is no limit per CDE, and state tax credits are allocated on a first come basis.

### APPLICATION/APPROVAL PROCEDURE

CDEs that have been certified by the Federal NMTC program are eligible to apply for the state NMTC program. The state application will be a two part process:

- The CDE submits an application to the Department of Economic Development (which is available on the website below).
- Once eligibility is determined, DED will send a preliminary approval letter to the applicant CDE, which will include an allocated amount of NMTC contingent upon qualified investments being made within 30 days of the date of the preliminary approval letter.
- If an approved CDE is not successful in gaining proof of the investment, the CDE will be required to reapply and will be required to obtain a commitment that secures the investment in the amount of the application to accompany the new submittal.

*Revised February 2010*

### **REPORTING REQUIREMENTS**

Twelve months from the date of the official allocation letter, the Applicant CDE must notify DED where the QEI was invested, provide adjusted purchase price, Senator and Representative information on where investment was made, and how much of a tax credit will be available for the taxpayer.

### **SPECIAL PROGRAM REQUIREMENTS**

- The tax credit is not refundable or transferable. Any amount of credit that cannot be used in the taxable year may be carried forward to any of the taxpayer's five subsequent taxable years.
- Tax credits earned by a partnership, limited liability company, S-corporation, or other "pass through" entity may be allocated to the partners, members or shareholders of such entity for their direct use in accordance with the provisions of any agreement among such partners, members, or shareholders.
- Qualified investments shall not be made following fiscal year 2010, unless the program is reauthorized by the general assembly.
- Pursuant to (Section 620.1900, RSMo) a fee in an amount up to 2.5% of the of tax credit amount applies to the Missouri New Markets Tax Credit Program. .

# BUSINESS FACILITY TAX CREDIT PROGRAM

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### NOTICE

Pursuant to SB 1155 (2004), the Business Facility Tax Credit Program is being phased out of existence.

- Only a facility that has commenced operations or put its development into use on or before December 31, 2004, can be eligible for the program.
- Facilities that do not commence operations until January 1, 2005, or later, will not be eligible to receive incentives under the program.

*Remember that Form 135.258, the pre-application ("Letter of Intent") for the facility, must be postmarked no later than 15 days before commencement of operations. For a business commencing operations ON December 31, 2004, the form must be postmarked no later than December 16, 2004. Forms postmarked after that date will be ineligible for the program without regard to the date of commencement of operations.*

- Facilities already in the program as of December 31, 2004, will continue to receive the state tax incentives under this program for up to ten years as provided in the law. These facilities are considered to be "grandfathered" into the program.

Pursuant to HB 191 (2009), "headquarters" that commence operations and "headquarters" of certain "employee-owned" businesses that commence or expand operations on or before December 31, 2019 may be eligible for the program.

### PURPOSE

Provide tax incentives to facilitate the expansion of new or existing businesses in Missouri.

### AUTHORIZATION

Sections 135.100 to 135.150, 135.258, RSMo

### ELIGIBLE AREAS

Statewide: Higher credit amounts are given for businesses in "distressed communities." For a list of cities and census block groups that are "distressed communities," visit DED's web site at [www.missouridevelopment.org](http://www.missouridevelopment.org).

### ELIGIBLE APPLICANTS

Facility eligibility is determined by its primary Standard Industrial Classification (SIC) or North American Industrial Classification System (NAICS) code, and includes manufacturing, warehousing, wholesale distribution,

mining, insurance carriers, research and development, recycling operations, computer-related services and certain office activities.

To receive credits in any of the ten years, the facility must create at least 2 new jobs (25 for office) and make \$100,000 in new investment (\$1,000,000 for "replacement facilities") in that year as compared to the base year (the year prior to the commencement of operations at the facility). For expansions of "headquarters" of certain "employee-owned" businesses, the facility must create at least 25 new jobs and make \$1,000,000 in new investment as compared to the base year.

The investment credits are based on the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

### PROGRAM BENEFITS/ELIGIBLE USES

State income tax credits are provided to the business based on the number of new jobs created and amount of new investment at the qualifying facility. The credits are provided each year for up to ten years after the project commences operations.

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 – Insurance Premium Tax
- Sec. 375.916 – Insurance Co. Retaliatory Tax

This credit has no special attributes. It must be applied to tax liability for the year it was earned.

### FUNDING LIMITS

#### New Companies

A new Missouri company can receive \$75 (or \$125 if in a distressed community) for each new job and for each \$100,000 of new capital investment at the project facility.

#### Existing Companies

An existing Missouri company can receive \$100 (or \$150 in a distressed community) for each new job and for each \$100,000 of new capital investment at the project facility.

Revised January 2011

## **APPLICATION PROCEDURE/APPROVAL**

The business must submit a form letter of intent (pre-application) to the Department of Economic Development (DED) at least 15 days prior to the commencement of facility operations, otherwise, the project is ineligible for the tax credits. DED must determine eligibility of the business within 15 days of receipt of the letter of intent form. Failure to meet this requirement precludes participation in the program for the base year sought.

The business must file an application for tax credits for its first year of operations by the end of the tax year immediately following the tax year during which operations were commenced. Failure to timely file the application for credits for the first year of operations will result in a denial of the application and precludes participation in the program for the base year sought.

# DEVELOPMENT TAX CREDIT PROGRAM

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### PURPOSE

To facilitate a business project in order to create new jobs.

The Development Tax Credit Program (DTC) offers state tax credits to taxpayers making contributions to a not-for-profit corporation (NFP) for projects approved by the Department of Economic Development (DED). The credits are for 50% of the contribution of cash or the value of certain types of property.

### AUTHORIZATION

Sections 32.100 to 32.125, RSMo

Regulations: 4 CSR 85-2.015, 2.030 to 2.040

### ELIGIBLE AREAS

Statewide, but the project must be located or qualify as a "blighted" or "conservation" area as defined in Tax Increment Financing (§99.805, RSMo), an enterprise zone (Ch. 135.200 et seq., RSMo), an enhanced enterprise zone (Ch. 135.09, RSMo) or an urban redevelopment area (Ch. 353, RSMo).

### ELIGIBLE APPLICANTS

Generally, manufacturing, processing or assembly projects that propose wages above the average for the area and provide health benefits are prioritized.

Other types of projects may be considered for approval if tax credits remain near the end of the state fiscal year.

There must be a positive economic benefit to the state. This calculation includes other state incentives provided for the project, and new public costs necessary to support the project.

### PROGRAM BENEFITS/ELIGIBLE USES

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 147 – Corporate franchise tax
- Ch. 148 –
  - Bank Tax
  - Insurance Premium Tax
  - Other Financial Institution Tax
- Ch. 153 – Express Companies Tax

The DTC program may be used for the acquisition of land or buildings through the purchase from cash contributions or donation of real estate. The acquisition of new or used machinery and equipment is also eligible if it is to be placed in an existing building.

This credit's special attributes:

- Carry forward 5 years
- Sellable or transferable

### FUNDING LIMITS

The amount of tax credits available for a single project:

Is limited to the lesser of \$500,000, or \$10,000 per full-time, permanent job created by the business within two years of execution of the lease; and

- Must be the least amount necessary to cause the project to occur.

Credits authorized under this program are limited to \$6,000,000 per fiscal year.

### APPLICATION/APPROVAL PROCEDURE

- Applications will be accepted by DED at any time of the year and will be approved on an individual, case-by-case basis, based on compliance with all program criteria, the need for this program to make a project feasible, a positive economic impact on the state and the availability of tax credits.
- The company cannot make a public announcement of the project prior to DED's contingent approval of an application.
- The not-for-profit (NFP) submits application documents to DED. If DED approves the request, a letter will be sent to the sponsor and company.

A DTC Agreement is executed between DED, the company and the not-for-profit. A lease agreement is executed between the company and the NFP. After the contribution is made, DED will issue tax credit certificates to the contributor.

## REPORTING REQUIREMENTS

For three years following the year of the first issuance of tax credits, a Tax Credit Accountability Act Reporting form is sent out by the DED. It must be filled out and received back by June 30 to avoid penalties.

## SPECIAL PROGRAM REQUIREMENTS

- The NFP must retain ownership of all properties acquired by the contribution for a minimum of five years. DED may allow a longer lease period depending on the needs of the project.
- The eventual disposition of properties acquired by the contribution will be no less than 75% of the fair market value of the facility, excluding the value of leasehold improvements.
- The amount of the lease payments will be determined by DED based on the following:
  - costs of the non-profit to operate and maintain the subject assets (if any); and
  - the amount of tax credits issued. In most cases, the NFP will provide DED the lease payments received in an amount to repay the tax credits plus interest.
- Only not-for-profit organizations authorized to operate in Missouri and headquartered in the geographic area of the proposed project are eligible recipients of DTC approved contributions. The business that will lease property from the NFP cannot have significant representation on the NFP's board.

- Ineligible NFP's include: churches and their denominational headquarters, units of government and any affiliated organization under their direct supervision, partisan organizations and public or tuition-based private schools.

# ENHANCED ENTERPRISE ZONE TAX BENEFIT PROGRAM

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### **PURPOSE**

Provide tax credits to new or expanding businesses in a Missouri Enhanced Enterprise Zone.

### **AUTHORIZATION**

Sections 135.950 to 135.973, RSMo

### **ELIGIBLE AREAS**

Enhanced Enterprise Zones are specified geographic areas designated by local governments and certified by the Department of Economic Development (DED). Zone designation is based on certain demographic criteria, the potential to create sustainable jobs in a targeted industry and a demonstrated impact on local industry cluster development. The Zone designation demographic criteria currently utilizes population and income data from the 2000 Census, U.S. Census Bureau. Unemployment information is updated annually using data from the U.S. Bureau of Labor Statistics.

### **ELIGIBLE APPLICANTS**

An eligible business must be located in a Missouri Enhanced Enterprise Zone (EEZ). Individual business eligibility will be determined by the zone, based on creation of sustainable jobs in a targeted industry or demonstrated impact on local industry cluster development. Service industries can be eligible if a majority of their annual revenues will be derived from services provided out of the state. Headquarters or administrative offices of an otherwise excluded business may qualify if the offices serve a multi-state territory. See application for complete information.

#### **Ineligible Applicants:**

Gambling establishments (NAICS group 7132),  
Retail trade (NAICS sectors 44 & 45),  
Educational services (NAICS sector 61),  
Religious organizations (NAICS group 8131),  
Public administrations (NAICS sector 92) and  
Food and drinking places (NAICS subsector 722) are  
prohibited by statute from receiving the state tax credits.

### **ELIGIBILITY CRITERIA**

The Enhanced Enterprise Zone program is a discretionary program offering state tax credits, accompanied by local real property tax abatement, to Enhanced Business Enterprises.

Tax credits may be provided each year for five tax years after the project commences operations.

To receive tax credits for any of the years, the facility must create and maintain the minimum:

- New or expanded business facility – 2 new employees and \$100,000 new investment;
- Replacement business facility – 2 new employees and \$1,000,000 new investment
- Company must offer health insurance at all times, of which at least 50% is paid by the employer, to all full time employees in Missouri.

Eligible investment expenditures include the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

### **PROGRAM BENEFITS/ELIGIBLE USES**

This tax credit can be applied to Ch. 143 – Income tax, excluding withholding tax

Tax credits can only be applied to tax liability for the year in which they were earned. The tax credits are refundable or may be transferred, sold or assigned. The sale price cannot be less than 75% of the par value of such tax credits.

### **FUNDING LIMITS**

Tax credits will be an amount authorized by DED, based on the state economic benefit, supported by the number of new jobs, wages and new capital investment that the project will create.

Tax credits issued under this program are limited to \$24,000,000 annually, effective August 28, 2008.

### **APPLICATION/APPROVAL PROCEDURE**

DED must first offer program benefits to the business in the form of a formal proposal. The company must return the accepted proposal within 90 days of the proposal date.

The company must submit the Notice of Intent (NOI), (Application & guidelines, pages 7-9), and be notified of approval before any new construction, and/or purchase of machinery and equipment can be eligible as new investment. NOIs will be accepted by DED at any time of the year and will be approved on an individual, case-by-case basis, based on compliance with all program criteria.

*Revised October 2013*

## **REPORTING REQUIREMENTS**

### ***Annual Application for Tax Credits –***

The facility must file the Annual Application for Tax Credits and supporting documents each year for calculation of the facility's state tax benefits. See page 10 of the application for a list of requirements. The deadline for submitting the Annual Application for Tax Credits is during the tax period immediately after the tax period for which the credits are being requested.

### ***SB 1099 Reporting –***

The "Tax Credit Accountability Act" reporting form must be returned for this program to DOR by June 30 of each year. Contact (573) 526-8733 (Personal Tax) or (573) 751-4541 (Corporate Tax) with any questions.

## **SPECIAL PROGRAM REQUIREMENTS**

Applicants must be eligible for and receive at least ten years' local property tax abatement at 50% pursuant to the local enhanced enterprise zone plan.

Projects relocating employees from one Missouri location to another Missouri location must obtain the endorsement of the governing body of the community from which the jobs are being relocated and include this endorsement with the Notice of Intent.

A business cannot earn tax credits under this program if earning Enterprise Zone, Business Facility, Quality Jobs, Rebuilding Communities or Brownfield Jobs and Investment tax credits for the same project for the same tax period.

# ENTERPRISE ZONE TAX BENEFIT PROGRAM

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

## NOTICE

Pursuant to SB 1155 (2004), the Enterprise Zone tax benefit program is being phased out of existence.

- ✓ Only a facility that has commenced operations or put its development into use on or before December 31, 2004, can be eligible for the state tax incentives under the program.
- ✓ Facilities that do not commence operations until January 1, 2005, or later, will not be eligible to receive the state tax incentives under the program.

*Remember that Form 135.258, the pre-application ("Letter of Intent") for the facility, must be postmarked no later than 15 days before commencement of operations. For a business commencing operations ON December 31, 2004, the form must be postmarked no later than December 16, 2004. Forms postmarked after that date will be ineligible for the state incentives portion of the program without regard to the date of commencement of operations.*

- ✓ Facilities already in the program as of December 31, 2004 will continue to receive the state tax incentives under this program for up to ten years as provided in the law. These facilities are considered to be "grandfathered" into the program.

Enterprise zone real property local tax abatement is not affected by the phase-out of the state incentive program.

## PURPOSE

Provide tax incentives to facilitate the expansion of new or existing businesses in one of Missouri's many enterprise zones.

## AUTHORIZATION

Sections 135.200 to 135.270, RSMo

## HOW THE PROGRAM WORKS

Local property tax abatement, a state income tax exemption and state income tax credits may be provided to a business based on various factors:

- ✓ the number of new jobs created
- ✓ the number of enterprise zone residents employed
- ✓ the number of "difficult to employ" people employed
- ✓ zone residents or difficult to employ employees receiving training
- ✓ the amount of new investment at the qualifying facility

The credits are provided each year for up to ten years after the project commences operations unless the life of the enterprise zone expires before that time.

## ELIGIBLE AREAS

The eligible project must be located in one of Missouri's "enterprise zones." Enterprise zones are specified geographic areas as certified by the Department of Economic Development (DED) based on demographic eligibility and approval of a request by the local governments. The number of zones that may be certified is limited by law.

A list of certified enterprise zones can be obtained from the department or via its web site. To determine whether a particular location is in an enterprise zone, contact the local zone administrator for that zone.

## ELIGIBLE APPLICANTS

Facility eligibility is determined by its primary Standard Industrial Classification (SIC) or North American Industrial Classification System (NAICS) code, and includes manufacturing, warehousing, wholesale distribution, mining, insurance carriers, research and development,

recycling operations, computer-related services and certain office activities.

To receive credits in any of the ten years, the facility must create at least 2 new jobs and make \$100,000 in new investment (\$1,000,000 for "replacement facilities") in that year as compared to the base year (the year prior to the commencement of operations at the facility).

The investment credits are based on the original cost of machinery, equipment, furniture, fixtures, land and building, and/or eight times the annual rental rate paid for the same. Inventory is not eligible.

### ELIGIBLE USE OF TAX CREDITS

This tax credit can be applied to:

- ✓ Ch. 143 – Income tax, excluding withholding tax
- ✓ Ch. 148 – Insurance Premium Tax
- ✓ Sec. 375.916 – Insurance Co. Retaliatory Tax

This credit has no special attributes and can only be applied to tax liability for the year it was earned, unless it was issued for a new facility, for which there may be up to a \$75,000 refund of state income taxes in the first two years of eligibility.

### APPLICATION PROCEDURE

The business must submit a form letter of intent (pre-application) to the Department of Economic Development (DED) at least 15 days prior to the commencement of facility operations; otherwise, the project is ineligible for the tax credits. DED must determine eligibility of the business within 15 days of receipt of the letter of intent form. Failure to meet this requirement precludes participation in the program for the base year sought.

The business must file an application for tax credits for its first year of operations by the end of the tax year immediately following the tax year during which operations were commenced. Failure to timely file the application for credits for the first year of operations will result in a denial of the application and precludes participation in the program for the base year sought.

### FUNDING LIMITS

A company can receive:

- ✓ Up to a 50% state income tax exemption
- ✓ A \$400 credit for each new job
- ✓ A \$400 credit for each employee who is an enterprise zone resident
- ✓ A \$400 credit for each employee who was a "difficult to employ" person (receiving welfare or unemployed for a specified period of time)
- ✓ Up to \$400 credit per employee trained who was a zone resident or "difficult to employ"
- ✓ A credit equal to \$5,500 for the first \$100,000 of new capital investment at the facility and 2% of new capital investment amounts above \$100,000 at the facility
- ✓ 50% local property tax abatement on improvements

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### **PURPOSE**

State tax credits are issued to a qualified film production company for up to 35% of the amount expended in Missouri for production or production-related activities to facilitate film production in Missouri.

### **AUTHORIZATION**

Sections 135.750, RSMo

### **ELIGIBLE AREAS**

Statewide.

### **ELIGIBLE APPLICANTS**

Any film production company with an expected in-state expenditure budget of at least \$100,000 for films over 30 minutes in length, and at least \$50,000 for films under 30 minutes in length.

### **ELIGIBILITY CRITERIA**

A film production company claiming the credit must first apply to the Department of Economic Development. A particular film will be eligible to receive the tax credit based on the amount of funds still withstanding for that particular year. Prior to the approval, the department will also look at the economic impact in determining whether the particular project would be a good fit for the tax credit.

### **PROGRAM BENEFITS/ELIGIBLE USES**

This tax credit can be applied to:

- Ch. 143 – Income tax, excluding withholding tax
- Ch. 148 –
  - Bank Tax
  - Insurance Premium Tax
  - Other Financial Institution Tax

This credit's special attributes:

- Carry forward 5 years
- Sellable or transferable

Only those Missouri expenditures necessary for the production of the film are eligible. Such expenditures may include, but are not limited to, the costs of labor (Missouri residents only), services, materials, equipment rental, lodging, food, location fees and property rental.

### **FUNDING LIMITS**

The entire film production tax credit program is capped at \$4.5 million.

### **APPLICATION/APPROVAL PROCEDURE**

Due to a finite amount of tax credits available, DED has established a procedure whereby tax credits may be set aside

for a given film project by the submission of an application that provides estimates for the company's Missouri expenditures on the project. Based upon these estimates and any other relevant information, DED may reserve a given amount of tax credits for the project (for a given period of time). If it appears at any time that a project may be significantly delayed, then DED may review the project and, if warranted, reclaim those reserved credits and apply them elsewhere.

In the application form, DED will ask for estimates on the amount of money to be spent in Missouri, as well as projected dates for establishing the production office and the first day of principal photography. These dates will be used in determining the length of time for which tax credits may be reserved for the project, as well as the likelihood that the project will actually be produced in Missouri.

### **REPORTING REQUIREMENTS**

Certain tax credit recipients are required to annually report to the DED information pertaining to the project that received the tax credits. The statute requires that a full year pass after the issuance of the tax credits before SB1099 reporting requirements must be met.

The "Tax Credit Accountability Act" reporting form must be submitted to DED by June 30 each year for three years following the year of the first issuance of tax credits, including the following information:

- Category of business by size
- Address of the business headquarters
- Addresses of all offices located within this state
- Number of employees at the time of the annual update
- Updated estimate of the number of employees projected to increase as a result of the completion of the project
- The estimated or actual project cost

### AUTHORIZATION

Section 620.1910, RSMo

### ELIGIBLE AREAS

Statewide.

### ELIGIBLE APPLICANTS

- Manufacture goods at a facility in Missouri throughout the period in which the company receives benefits under the Act; and
- Makes a capital investment of at least \$75,000 per retained job at the facility for the manufacture of a new product within two years of beginning to retain withholding taxes; or
- Commits to make a capital investment of at least \$50,000 per retained job at the facility for the modification or expansion of the manufacture of an existing product within two years of beginning to retain withholding taxes.

- Pays wages for the new jobs that are equal to or exceeds the lower of the county average wage for Missouri as determined by the department using the NAICS industry classifications but are not less than 60% of the statewide average wage; and
- Provides health insurance for all full-time jobs and pays at least 50% of the insurance premiums.

### PROGRAM BENEFITS/ELIGIBLE USES

Allows a qualified manufacturing company, beginning January 1, 2012, upon approval of a notice of intent by the department, to retain 100% of the withholding taxes from full-time jobs at the facility for 10 years if it manufactures a new product, or to retain 50% of withholding taxes from full-time jobs for seven years if it modifies or expands the manufacture of an existing product.

Allows a qualified supplier, upon approval of a notice of intent by the department, to retain 100% of the withholding taxes from new jobs for three years. If the qualified supplier pays wages for the new jobs that are equal to or greater than 120% of the county average wage for Missouri as determined by the department using NAICS industry classifications, it can retain the withholding taxes for five years.

### FUNDING LIMITS

Limits the amount of retained withholding taxes authorized under the Act for any one qualified manufacturing company to \$10 million per year and limits the aggregate amount of retained withholding taxes authorized under the Act to \$15 million per year.

Specifies that if a qualified manufacturing company is utilizing withholding taxes from jobs at the facility for any other state program, the taxes will first be credited to the other state program before beginning to accrue under the provisions of the Act. The other state programs include, but are not limited to:

- New Jobs Training Program (Sections 178.892 - 178.896);
- Job Retention Program (Sections 178.760 - 178.764);

In the event that a company has not maintained the minimum program requirements, benefits will cease for the remainder of the benefit period.

### SPECIAL PROGRAM REQUIREMENTS

Allows a qualified manufacturing company to remain eligible to participate in the Missouri Quality Jobs Program for any new jobs for which it does not retain withholding taxes, if it meets the qualifications for that program but prohibits a qualified manufacturing company from simultaneously receiving benefits from:

- Business use incentives for large-scale developments (Sections 100.700 - 100.850, RSMo);
- New or expanded business facilities (Sections 135.100 - 135.150);

- (g) Missouri Quality Jobs Program (Section 620.1881).

Requires a qualified manufacturing company that fails to make the required capital investment within two years to immediately cease retaining any withholding taxes with respect to jobs at the facility, repay all withholding tax previously retained plus interest of 5% per year, and forfeit all rights to retain withholding taxes for the remainder of the withholding period. If the failure to make the capital investment is due to economic conditions beyond the company's control, the department director may suspend the right to retain withholding taxes one time for up to three years at the company's request.

### ELIGIBILITY CRITERIA

Program	Minimum New Jobs	Minimum New Private Capital Investment	Minimum Average Wage	Automatic Benefit
Zone Works (Note 1)	2	\$100,000	80% of County Avg. Wage	WH, 5 or 6 years (Note 3)
Rural Works (Note 2)	2	\$100,000	90% of County Avg. Wage	WH, 5 or 6 years (Note 3)
Statewide Works	10	N/A	90% of County Avg. Wage	WH, 5 or 6 years (Note 3)
Mega Works 120	100	N/A	120% of County Avg. Wage	6% of new payroll, 5 or 6 years (Note 3)
Mega Works 140	100	N/A	140% of County Avg. Wage	7% of new payroll, 5 or 6 years (Note 3)

"WH" means the retention of the state withholding tax of the new jobs

Note 1: Project facility must be located in an Enhanced Enterprise Zone.

Note 2: Project facility must be located in a "rural" county, which would NOT include Boone, Buchanan, Clay, Greene, Jackson, St. Charles, and St. Louis City and County.

Note 3: Benefit period is 5 years, or 6 years for existing Missouri companies (those that have been operational in Missouri for at least 10 years).

In addition to the Automatic Benefit indicated above, the Statewide Works or Mega Works projects may be considered for discretionary benefits, limited to the net state fiscal benefit. The criteria for the discretionary benefits include:

- The least amount necessary to obtain the company's commitment;
- The overall size (number of jobs, payroll, new capital investment) and quality (average wages, growth potential of the company, multiplier effect of the industry) of the project;
- The financial stability and creditworthiness of the company;
- The level of economic distress of the project area;
- The competitiveness of alternative locations; and
- The percent of local incentives committed to the project.

### PROGRAM BENEFITS

Program benefits are (a) the retention of the state withholding tax of the new jobs and/or (b) state tax credits, which are refundable, transferable and/or saleable. The program benefits are based on a percentage of the payroll of the new jobs. The program benefits are not provided until the minimum new job threshold is met and the company meets the average wage and health insurance requirements.

"New jobs" are defined as full-time (average 35 or more hours/week each year and for whom the company offers/pays 50% of health insurance) employees of the company located at the project facility, based on the increase from the "base employment".

"Base Employment" is the greater of (a) the number of full-time employees on the date of the Notice of Intent, or (b) the average number of full-time employees for the 12 month period prior to the date of the Notice of Intent. In the event the company (or a related company) reduces jobs at another facility in Missouri with related operations, the new jobs at the project facility would be reduced accordingly.

### FUNDING LIMITS

There is no annual limit on the retained withholding taxes. Tax credits issued for the entire program shall not exceed \$106 million for FY2014, \$111 million for FY2015, and \$116 million for 2016 forward.

### ATTRIBUTES OF THE TAX CREDITS

The tax credits may be applied to Chapter 143 (state income tax, excluding withholding tax) and Chapter 148 (financial institution tax). Tax credits must be claimed within one year of the close of the taxable year for which they were issued. Tax credits can only be applied to tax liability for the year in which they were earned. Any annual unused balance is fully refundable. The credits may also be transferred, sold or assigned.

### APPLICATION/APPROVAL PROCEDURE

Prior to the receipt of a DED proposal or approval of a notice of intent ("NOI"), none of the following can have occurred:

- Significant, project-specific site work at the project facility.
- Purchased machinery or equipment related to the project.
- Publicly announced its intention to make new capital investment at the project facility.

Revised July 2017

Upon receipt of the proposal/NOI, DED will:

- Confirm the business is eligible;
- Establish the date at which "base employment" is calculated;
- Reserve the estimated tax credits for the project; and
- Establish the 2-year "deadline" date by which the minimum thresholds for the creation of the new jobs, investment, etc must be met.

## REPORTING REQUIREMENTS

On an annual basis, the business must submit a report documenting the new jobs created, the total payroll, and confirming that the business meets the health insurance requirements for the new jobs. In the event that a company has not maintained the minimum program requirements, benefits may cease for the remainder of the benefit period. The Tax Credit Accountability Act Reporting Form must be submitted to the Department of Revenue by June 30th each year the company receives tax credits and for the three years following the issuance of the tax credits.

## SPECIAL PROGRAM REQUIREMENTS

A business cannot simultaneously receive benefits for the same capital investment or the same jobs for the following programs:

- Rebuilding Communities

Special conditions apply when Missouri Works is used at the same time as other programs that affect state withholding taxes (Missouri Training, State TIF, MODESA).

# MISSOURI QUALITY JOBS PROGRAM

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### PURPOSE

Facilitate the creation of quality jobs by targeted business projects.

### AUTHORIZATION

Section 620.1875-620.1900, RSMo

### ELIGIBLE AREAS

Statewide.

### ELIGIBLE APPLICANTS

For-profit and non-profit businesses [except for gambling, retail trade, food and drinking places, public utilities, educational services, ethanol distillation or production facilities, biodiesel production facilities, religious organizations, and public administration companies or businesses that are delinquent in non-protested taxes or other payments (state, federal or local), or any company that has filed for or has publicly announced its intention to file for bankruptcy.] Headquarters or administrative offices of otherwise excluded businesses that serve a multi-state area may qualify in some cases. The average wage of the new jobs must equal or exceed the county average wage (as published by DED), and the company must offer health insurance and pay at least 50% of the premium for all full-time employees in Missouri.

- **Average Wage:** Total annual payroll of the new jobs divided by the average annual number of new jobs.

### ELIGIBILITY CRITERIA

The business must create a minimum number of new jobs at the project facility prior to the "deadline" date, based on the type of project:

- **Small/Expanding businesses:**
  - Rural areas: 20 or more new jobs within two years of the date of DED's approval.
  - Non-rural areas: 40 or more new jobs within two years of the date of DED's approval.

*\*Non-rural areas include the counties of Boone, Buchanan, Clay, Greene, Jackson, St. Charles, and St. Louis city and county.*

- **Technology businesses** (classified by NAICS codes):
  - 10 or more new jobs within two years of the date of DED's approval.
- **High Impact businesses:**
  - 100 or more new jobs within two years of the date of the hiring of the first new job, and the first new job must be within one year of the date of DED's approval.

### PROGRAM BENEFITS/ELIGIBLE USES

For "Small/Expanding" businesses, the benefit of the program is the retention of the state withholding tax of the new jobs.

For "Technology" and "High Impact" businesses, the benefits of the program are (a) the retention of the state withholding tax of the new jobs; and (b) state tax credits, which are refundable, transferable and/or saleable. The program benefits are based on a percentage of the payroll of the new jobs. The program benefits are not provided until the minimum new job threshold is met and the company meets the average wage and health insurance requirements.

This tax credit can be applied to Chapter 143 (state income tax, excluding withholding tax) and Chapter 148 (financial institutions tax). Tax credits must be claimed within one year of the close of the taxable year that they were issued. Tax credits can only be applied to tax liability for the year in which they were earned. Any unused balance is refundable. The credits may also be transferred, sold or assigned.

The program benefits are calculated as follows:

#### Small/Expanding businesses:

Retain 100% of the withholding tax of the new jobs, each year for the benefit period of:

- Three years - if the average wage of new jobs is 100-119% of county average wage; or
- Five years - if the average wage of new jobs is at least 120% of county average wage.

#### Technology businesses:

5% of the payroll of the new jobs each year for five years; **plus:**

- "Average Wage Bonus"

#### High Impact businesses:

3% of the payroll of the new jobs each year for five years; **plus:**

- "Average Wage Bonus"
- "Local Incentives Bonus"

**"Average Wage Bonus"** (company average wage as a percentage of county average wage):

- Greater than 120% and up to 140%: 1/2% bonus of payroll of the new jobs.
- Greater than 140%: 1% bonus of payroll of the new jobs.

**"Local Incentives Bonus"** (amount of local incentives provided to the project as a percentage of the amount of new local tax revenues derived from the project, over 10 years):

- 10-24%: 1% bonus of payroll of the new jobs.
- 25-49%: 2% bonus of payroll of the new jobs.
- 50% or more: 3% bonus of payroll of the new jobs.

Each time the business meets the minimum new job threshold, it may start a new benefit period for the net new jobs created. There is no limit on the number of benefit periods a company may use the program, as long as a new Notice of Intent is completed and minimum new job thresholds and other program qualifications are met.

**"New jobs"** are defined as full-time (average 35 or more hours/week each year) employees of the company that are employed at the project facility, based on the increase from the "base employment" (the number of full-time jobs at the facility, or the average number for the twelve-month period prior to the Notice of Intent, whichever is higher, on the date DED receives the Notice of Intent). In the event the company (or a related company) reduced jobs at another facility in Missouri with related operations, the new jobs at the project facility would be reduced accordingly.

### FUNDING LIMITS

There is no annual cap on the retained withholding taxes. Tax credits issued for the entire program shall not exceed \$80,000,000 per calendar year, and are provided on a first-come basis.

Revised July 2017

## APPLICATION/APPROVAL PROCEDURE

An application ("Notice of Intent") may be submitted to DED at any time of the year by the business. Applications may be obtained at [www.missouridevelopment.org](http://www.missouridevelopment.org). DED's approval will:

- Confirm that the type of project/business is eligible.
- Establish the date "base employment" is calculated.
- Reserve the estimated tax credits for the project.
- Establish the 2-year "deadline" date for the creation of the minimum new jobs to be eligible for the program.

## REPORTING REQUIREMENTS

On an annual basis, the business must submit a report documenting the new jobs created, the total payroll, and confirming that the business meets the health insurance requirements for the new jobs. In the event that a company has not maintained the minimum program requirements, benefits will cease for the remainder of the benefit period. A high-impact project may continue as a small/ expanding project as long as new jobs and other program requirements are met. SB1099, or the Tax Credit Accountability Act Reporting Form must be submitted to the Department of Economic Development by June 30th each year the company receives tax credits and for the three years following the end of the benefit period.

## SPECIAL PROGRAM REQUIREMENTS

A business cannot earn benefits simultaneously at the project facility under this program if earning benefits under any of the following state programs:

- Missouri Enterprise Zone program or Enhanced Enterprise Zone program
- Business Facility program
- Rebuilding Communities program
- Brownfield Jobs and Investment tax credits

# CAPCO PROGRAM

## (Certified Capital Company)

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### PURPOSE

Induce private investment into certified venture capital funds that invest in new or growing Missouri small businesses.

### AUTHORIZATION

Sections 135.500 to 135.529, RSMo  
Regulations: 4 CSR 80-7.010 to 7.040

### HOW THE PROGRAM WORKS

Private venture capital firms apply to the department for certification as a CAPCO. CAPCOs are allocated state tax credits to be given to insurance companies that invest in the CAPCO funds. At this point, all credits allowed under the law have been authorized. The credits can only be applied toward premium tax liability.

CAPCOs are required to make equity investments in eligible Missouri businesses according to a timetable set by law.

### ELIGIBLE AREAS

Eligible Missouri businesses can be located statewide for all funds except funds created through the "distressed community" allocation. These funds must be invested in businesses located in distressed communities. For a list of cities and census block groups that are "distressed communities," visit DED's web site at [www.missouridevelopment.org](http://www.missouridevelopment.org).

### ELIGIBLE CAPCO INVESTMENTS

A CAPCO may invest in a "qualified Missouri business," which must:

- ✓ be independently owned and operated;
- ✓ be headquartered in Missouri;
- ✓ employ less than 200 persons before the investment is made with at least 80% of them employed in Missouri;

- ✓ be a small business concern that meets the requirements of the United States Small Business Administration qualification size standards for its venture capital program as defined in Section 13 CFR 121.301(c) of the Small Business Investment Act of 1958, as amended;
- ✓ be in need of venture capital and unable to obtain conventional financing; and
- ✓ derive its revenue primarily from:
  - ✓ manufacturing, processing or assembling of products;
  - ✓ conducting research and development; or
  - ✓ providing services in interstate commerce, excluding retail, real estate, real estate development, insurance and professional services provided by accountants, lawyers or physicians (service businesses must demonstrate that more than 33% of its revenue would be from outside the state of Missouri).

CAPCO fund investments can be in the form of equity investments, unsecured loans or hybrid investments.

CAPCO funds invested in the business must be used for new capital improvements, research and development and certain working capital expenses. All such funds must be used in Missouri.

The maximum amount a CAPCO may invest in one Missouri business is 15% of the CAPCO's certified capital.

Funding decisions are made by each CAPCO based on its evaluation.

# COMMUNITY DEVELOPMENT CORPORATION TAX CREDIT

MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

## PURPOSE

Induce the creation of Community Development Corporations (CDC) which would then invest in new or growing small businesses, owner occupied housing, certain types of real estate development, or redevelopment projects in a targeted area.

## AUTHORIZATION

Sections 135.400 to 135.430, RSMo.

## HOW THE PROGRAM WORKS

A "Fundor" (contributor or investor) may obtain state tax credits based on 50% of their investments or contributions in a pre-approved CDC. The CDC would then make equity investments or loans to a specific project within the designated redevelopment area.

## ELIGIBLE AREAS

Statewide.

## ELIGIBLE PROJECTS

Nearly any type of commercial business operation or real estate development project located in the designated redevelopment area is eligible to receive funding by the CDC projects. The targeted area is specified by the CDC, and must comply with certain demographic requirements specified by the Department of Economic Development (DED).

## ELIGIBLE USE OF FUNDS

A CDC may use the funds for loans or equity investments to a business to be used for acquisition of real estate or buildings, new capital improvements and working capital. Funds may also be used for real estate development or redevelopment projects, including certain types of housing in-fill and new construction for owner occupied units.

## APPLICATION PROCEDURE

A CDC may submit an application to DED at any time. DED will approve the application based on compliance with all the eligibility criteria and the ability of the CDC to successfully manage the fund. The CDC must prepare a revitalization plan to be approved by the Missouri Department of Economic Development, unless it is completely within a federal empowerment zone/enterprise community.

The tax credits will be provided to the "Fundor" upon documentation of the investment or contribution to the CDC as outlined in the program guidelines. Any contribution or investment made by the "Fundor" prior to DED's approval of a request for the tax credits by the CDC will not be eligible for tax credits.

## FUNDING LIMITS

The maximum tax credits provided to "Fundors" of a CDC is \$100,000 (based on investments or contributions of \$200,000). The maximum investment by the CDC in one project/business is \$100,000. The CDC's investment must create/retain at least one full-time job (except in housing). Application approval will be based upon the availability of tax credits within the program along with the order in which they are received.

# NEW ENTERPRISE CREATION ACT

## MISSOURI DEPARTMENT OF ECONOMIC DEVELOPMENT

### PURPOSE

To generate investment for new, startup Missouri businesses that have not developed to the point where they can successfully attract conventional financing or significant venture capital from later-stage funds.

### AUTHORIZATION

Sections 620.635 – 620.653 RSMo.

### ELIGIBLE AREAS

Statewide.

### ELIGIBLE APPLICANTS FOR INVESTMENT

Any independently owned and operated business that is headquartered and located in Missouri and maintains a Missouri headquarters for at least three years.

### ELIGIBILITY CRITERIA

The business must be involved in commerce for the purpose of production, conducting research and development or providing services in interstate commerce. The focus is on businesses in the startup or development phase.

Prolog Ventures, LLC (Prolog) is seeking businesses based upon proprietary technology with the potential to develop a strong intellectual property position. Areas of interest include medical devices and diagnostics, human and agricultural biotechnology and biomedical IT. Of potential interest are instruments, photonics, new materials and software.

Businesses that are excluded from investments include retail and consumer, real estate, oil and gas, minerals, telecom networks, Internet portals and publishing and consumer-oriented IT.

The business should have no positive cash flow in the prior fiscal year. Revenue oriented companies should target at least \$30 million in revenues in five years. Businesses whose valuation is not dependent upon revenues will be evaluated according to its potential for valuation increases upon attaining milestones. The business should be willing to provide a non-confidential summary and hold initial discussions on a non-confidential basis.

The business must maintain its headquarters in Missouri for a period of at least three years from the date of the qualified investment or be subject to penalty.

### PROGRAM BENEFITS/ELIGIBLE USES

The Department of Economic Development (DED) will issue tax credits equal to 100% of the investment in a qualified fund to any accredited individual, corporation, partnership or financial institution that makes a qualified investment. At this point all credits under the law have been authorized and all investments have been identified.

The Missouri Seed Capital Investment Board was created to establish a qualified fund. The Board is comprised of thirteen members, eight of which are appointed by the Governor.

Prolog was selected by the Board as the Fund Manager to raise the contributions and manage the investments of the fund. Prolog entered into a contract with the four Innovation Centers, as required by statute. Investors in the qualified fund will also be required to invest in a non-qualified parallel fund that will make investments in Missouri and surrounding states. Prolog will make investments in qualified Missouri businesses in need of early-stage or "seed" funding.

Investments made through this program may be used for research; development and precommercialization activities to prove a concept for a new product, process or service; preproduction product development; service development; or initial marketing of a product.

DED provides the investor a tax credit equal to 100% of their investment in the qualified fund. The tax credit may then be used to offset state income tax (chapter 143, RSMo), corporate franchise tax (chapter 147, RSMo) or financial institution tax (chapter 148, RSMo) liability, other than taxes withheld pursuant to sections 143.191 to 143.265, RSMo.

DED may authorize up to \$20 million in tax credits for use by the qualified fund, with no more than \$5 million of tax credits being issued in any one year. Tax credits may be claimed for the tax year in which the qualified contribution is made or in any of the following ten years. Tax credits may be sold and transferred to another taxpayer having tax liability.

### FUNDING LIMITS

The Prolog Funds will typically invest between \$500,000 and \$1,500,000 in a single business. They have the potential to invest \$2,000,000-\$3,000,000 at the maximum.

No more than 10% of all of the qualified contributions to a qualified fund may be invested in a single qualified business.

Revised January 2011

Investments shall not be provided to any business that has experienced positive cash flow in a past fiscal year, with the exception of follow-up capital limited to qualified businesses that previously received qualified investments. No more than 40% of qualified contributions may be used for follow-up capital purposes.

#### **APPLICATION/APPROVAL PROCEDURE (BUSINESS)**

The business seeking an investment should send Prolog a non-confidential executive summary of their business plan. Applicants will be contacted directly by Prolog regarding their level of interest and any subsequent steps that are required. DED does not have the authority to require the Fund Manager to fund a project.

#### **APPLICATION/APPROVAL PROCEDURE (INVESTOR)**

Accredited investors should contact Prolog directly. If accepted, the investor will be asked to fill out Missouri Form 620-635 and return the completed form to DED for approval and certification. DED will issue a tax credit certificate authorizing the applicant to claim the tax credit.
